## Automatic magnet N-1000

- Works automatically, lift detection
- User friendly
- Allows ergonomic lifting
- Quick change of lifting mode
- Automatic demagnetization
- Small size
- Lifting capacity 1000kg
- Quick-change battery
- Long operating time
- Lifting strap included
- Warranty 12months

**The battery is not supplied with the device.!**

## TECHNICAL INFORMATION

Dimensions (D x H):	D220 mm x 330 mm
Weight:	30,2 kg
Measured holding force:	2100 kg (S235 S $\geq$ 30 mm)
Lifting capacity:	1000 kg (S235 S $\geq$ 30 mm)
Battery:	Makita BL1850B-2 18V LXT Lithium-Ion 5.0Ah

### Environmental conditions:

- Operating temperature: 0°C ... +55°C
- Storage temperature: -30°C ... +40°C (no battery)
- Humidity: 0% ... 90%
