magnets

Automatic magnet N-500

- Works automatically, lift detection
- User friendly
- Allows ergonomic lifting
- Quick change of lifting mode
- Automatic demagnetization
- Small size
- Lifting capacity 500kg
- Quick-change battery
- Long operating time
- Lifting strap included
- Warranty 12months

The battery is not supplied with the device.!

TECHNICAL INFORMATION

Dimensions (D x H):	D164 mm x 308 mm
Weight:	17,5 kg
Measured holding force:	1050 kg (S235 S \geq 20 mm)
Lifting capacity:	500 kg (S235 S \geq 20 mm)
Battery:	Makita BL1850B-2 18V LXT Lithium-Ion 5.0Ah

Environmental conditions:

- Operating temperature: 0°C ... +55°C
- Storage temperature: -30°C ... +40°C (no battery)
- Humidity: 0% ... 90%
